The AKW Tuff Form wet room / walk in shower tray is a lightweight yet strong floor former that is suitable for use with **wheelchair** showering and can accept **VINYL** or **TILED** flooring making it the ideal choice for both disabled showers and family wet rooms or where combined useage is required. Tens of thousands of installations worldwide, so it's popular – and proven!

Drain Options:

Available with standard drains (Max flow rate 45L/min) for vinyl or tiled floor finish, with a depth of 125.6mm beneath the Tuff Form Dec.

Alternatively low profile (depth beneath tray 61mm, flow rate 27 L/min) drain options are also available for vinyl or tiled floor finish.

At a Glance:

- 1000 x 1000 x 22mm
- Creates a full level access showering solution
- Exceptionally strong to accommodate a user with wheelchair and a carer
- Superior strength and rigidity providing excellent water integrity with comfort and safety underfoot
- Maximum weight capacity 40 stone / 254kg
- Suitable for both wooden and solid floors
- Formed from compressed GRP
- Can be cut to length or trimmed to within 150mm of the waste without losing any strength integrity
- The ribbed design of the underside eliminates slippage or float during installation
- Offset waste position to avoid joists pipework
- Tuff Form® depth is 22mm
- Easily trimmed on site to enable fast and simple installation
- Pre-formed fixing holes
- Comes with choice of waste - Choose VINYL or TILED
- Lifetime guarantee if fitted in accordance with manufacturers instructions
