Description

Shower Tray Size: 1200 x 800 x 30mm

The Merlyn Truestone shower tray is a luxurious textured slate effect shower tray which is also available for flush fitting to the surrounding floor, creating a walk in wet environment. Available in a range of five stunning colours and in rectangular, square, quadrant and offset quadrant shapes across numerous sizes.

Beautifully handcrafted and ultra-low slate effect shower trays, elegant in appearance and luxurious to touch. These Merlyn Truestone shower trays will bring an element of natural beauty and a truly designer finish to your bathroom or wet room.

- Ultra slim: only 30mm in height
- Handcrafted from high grade stone resin
- 5 colour options - Pure Black, Sandstone, Slate Black, White & Fossil Grey
- Intergrated discreet waste cover
- Luxurious textured finish
- Can fitted on or flush with the floor
- Includes 90mm fast flow waste -capacity 29L/Min
- Manufactured in accordance with EN14527
- Shower tray 5 year guarantee

Important information & Considerations:

- These trays are very heavy and will require at least two persons for handling.
- Trays should be stored flat
- It is up to the designer or installer to ensure that the tray and enclosure combination is arranged in such a

way that water retention meets the customers needs.

- The waste has the capacity to carry away 29L/Min. High powered systems may exceed this. Please check with the manufacturer.
- Please ensure that the shower head is not positioned directly over the waste as this may restrict water flow rate.
- Please ensure that the colour and size of shower tray are as per your order before installation.
- You must inspect the product thoroughly before installation. Fitting the product is acceptance of quality.
- The trays are handmade from natural material. Please allow for height variances due to manufacturing tolerances.
- For open ended shower screens please consult your installer.
- Shower trays must be fitted as per the fitting instruction. Deviation from the pre installation checks or fitting installation will void the guarantee.
- When wet, the surface of the majority of shower trays will show an increase in the potential for slipping. This is particularly the case when soap, shampoo, bath oil etc. are used. It is important that designers, installers and users are aware of this.

Please note: Images are for illustration purposes only. The colours and finishes shown above are as accurate as possible with the limits of screen display.
