Description

If you are looking for a modern, ultra-low-profile shower tray that will continue to look great for years to come, but feel you don't need flush-to-the-floor fitting or that contemporary wetroom look, this is the range for you.

What's more, TrayMates commitment to innovation extends to the optional Anti-Slip surface of the tray (also available in the Symmetry range). Rather than applying this after manufacture, TrayMate have developed a unique process to incorporate the anti-slip surface into the tray itself, ensuring a lifetime of confidence when you're in the shower, and doing away with the need to replace it.

Stylish, hard-wearing and easy to install, the Elementary is ideal for families of all ages.

Selected sizes are available with an optional anti-slip coating.

Optional feet & panel packs available for fitting tray above floor level, please see: [Elementary Leg & Panel Set](#)

Specification:

760 x 760mm

25mm High

Weight 21kg

[Full size specification](#)

Recommended Users:

For all families, elderly users advised to use **anti-slip option**. Anti Slip option on selected sizes.

Optional Anti Slip Coating - Selected Tray Sizes Only:

Ideally suited to families with young children and those who just want to feel confident on their feet while in the shower, this unique patented technology ensures a lifetime of underfoot confidence when showering.

Unlike other anti-slip technologies which are applied on top of the surface of the tray after manufacture and wear away over time, our patented anti-slip surface is integrated directly into the shower tray at time of manufacture, meaning it never wears away and will last as long as the shower tray. What’s more, because it’s actually part of the tray’s surface, cleaning it is as simple as cleaning the shower tray.

The TM25 Anti-Slip range offers a permanent guaranteed solution. When independently tested to the British standard 7976-2 slip test, the patent protected surface provided almost twice the bathroom industry standard of slip resistance.

The anti-slip option is available on selected sizes of the Elementary and Symmetry shower trays.

Anti slip Features & Benefits:

- Patent protected unique surface built into surface of tray
- Market leading Anti-Slip rating – almost twice the industry standard
- Lifetime Anti-slip guarantee. No need to repair or replace surface later
- Easy to clean surface
- Hand made in UK
- Suitable for all users
- Suitable for all domestic applications, hotels and commercial contracts
- Comfortable under foot
