The Wetrooms Online **WetBase Standard** wet room floor / shower base is an easy to install 'walk in shower' floor tray, with a classic square design drain outlet. This kit comes complete with a **Dallmer** fast flow drain and stainless steel grill. Complete with a choice of **Jackoboard** 5kg liquid based (no mixing required) tanking kit for waterproofing the shower area walls and floor, or a complete **Tanking, Fixing & Sealing Kit** for fixing the WetBase, waterproofing the floor and walls in addition to sealing the perimeter of the tray where it meets the wall / surrounding floor. The perfect solution for installing a wet room or Walk in Shower.

Designed and manufactured in Germany, the WetBase Standard is a premium wet room floor former, with a 20 year guarantee when installed in accordance of the instructions. The tray can be trimmed by up to 50mm off each edge of the tray. Suitable for installation in both wooden and concrete floors, the WetBase standard is designed to be installed flush to the surrounding floor (the surrounding floor level will need to be raised with [Tile Backer Insulation Board](#)), and over tiled to create a level access showering area.

Drain Cover

The Wetbase Standard wet room tray, ships with a standard, pressed stainless steel drain cover. This can be upgraded to a solid 6mm thick, laser cut brushed stainless steel 'Quadra' drain cover.

Standard Cover

Quadra Cover
