A level wet room walk in shower tray complete with a **Dallmer** fast flow drain and choice of 5kg liquid based (no mixing required) tanking kit, either **Jackoboard tanking kit** or **Weber Sys Protect**. The perfect solution for installing a wet room or Walk in Shower.

### Which tanking kit should I choose?

We offer a choice of either Jackoboard tanking kit or Weber Sys Protect. Both are highly respected, market leading tanking kits.

Both tanking kits are paint on in application and both have a similar coverage of approx. 5 – 7 sqm with the recommended two coats.

We simply offer the choice as some professional fitters have a personal preference for one or the other. If it helps to make your choice simpler, the fitters in our sister company use the **Jackoboard** tanking kit.

### Have a question about the WetBase or fitting it?
